During the CMC certification process it was demonstrated that the test facilities named in this certificate apply to the following requirements:

- All instruments in the test facilities are traceable to international accepted measurement standards,
- The calibration models (equations) are correct,
- The Calibration and Measurement Capabilities (CMC) are calculated according the JCGM 100:2008 "Evaluation of measurement data - Guide to the expression of uncertainty in measurement",
- A set of procedures is in place to maintain the CMC for the period of validation.

## LV.2015.03.0011

granted on 9 February 2018

This declaration is valid until:  
**1 December 2019**

The CMC certification has been granted for the first time on:

**1 December 2015**

Test facilities with CMC certification valid under this certificate:

**Pipe Prover calibration facilities, VSL CMC certificate numbers 39333075 and 39333076, valid until 1 December 2019**

**Liquid volume calibration facility, VSL CMC certificate number 39333076, valid until 1 December 2019**

**Auxiliary measurement equipment calibration facilities, VSL CMC certificate number 39333077, valid until 1 December 2019**
